Right now I'm pretty sure I'll unsubscribe for the first time since 2011! I have enough of this dev crew interesting, to say the least  
Admittedly, gray imports of the Mexican version of the original toy by IGA were also available in European stores around this time, and Hasbro themselves would release the original toy again two years later as part of their European-exclusive Classics line of reissues

I'm not gonna argue with that you're better than me on a basis that you bother to lead raids and explain everything because you are  
One, the Decepticons' hologram, dubbed "Moustache Man" in the credits, is played by real-life United States Air Force Major Brian Reece, whereas Tom Banachek is portrayed by established actor Michael O'Neill  
Since the toys couldn't combine into Devastator anymore, fans believe that the Earthforce comic story was intended to serve as an "explanation" for this  
Michael Bay and producers Don Murphy, Tom DeSanto, and Lorenzo di Bonaventura also returned.  
[42] Though possibly unintentional, when the Fallen takes the Matrix and uses it to power up the Star Harvester, Megatron utters "Yeeesss." Jetfire isn't the only Transformer to call Earth 'Dirt Planet'  
Burning Slices has been moved to Concentration  
Later on, with the release of the Transmetals and Fuzors subranges, the Transformers name was increased in size and prominence on the packaging  
DarkSlayer Wait until the first patch is in  
The drone is powered by a propeller, which can be seen when the (real) drone takes off  
Upon his return, Sam continues to attend college, while Optimus Prime sends another message detailing recent events, so the shared past of Humanity and the Autobots will not be forgotten as it was before  
The Transmetal II toy of Dinobot came in three variants  
Details  
Following the destruction of an artificial moon that hovered around Earth, Dinobot researches the strange goings-on and realizes that Megatron had in fact landed on the correct planet: Earth.  
[31] He infiltrates the Predacon base, and steals two golden discs which contain information pertaining to the planet's vast supply of Energon, as well as the location of The Ark.  
[31] The disks also trouble Dinobot, as he believes they can predict the future.  
[32] Dinobot eventually contemplates rejoining the Predacons after realizing that Megatron was going to triumph over the Maximals.  
[32] He returns one of the disks to Megatron, but defies an order to destroy Rattrap, realizing that the scale of Megatron's ambition is too dangerous.  
[32] Dreamwave Productions  
[edit] Theatrical posters  
Charged Burst is now Gunslinger exclusive  
What makes this even more problematic is the fact that Egypt and Jordan don't share a common border the country of Israel is in-between them, whose existence isn't even mentioned in the movie
